Directions

- The grid fabric is pre-printed with a grey grid that consists of 9 squares per inch both horizontally and vertically and is covered with a super-sticky adhesive. The adhesive is covered with a thin protective film to keep the adhesive sticky and clean.
- Wash your hands before you begin.
- Start dotting from the right side of the design and complete row by row, following the pattern as you go.
- When you have completed the whole design, place the protective film over the DOTZ® and roll over firmly with a rolling pin.
- Trim excess fabric leaving 3-4 rows around the dotted design.
- Apply a generous amount of DOTZ® STICK Adhesive to the back side of your dotted fabric piece using your Fabric Brush.
- Center the back side of dotted fabric piece onto the front side of the Cushion Fabric. Press together firmly over night to allow the adhesive to secure the 2 fabric pieces together.
- To finish off, either hand or machine sew or secure with DOTZ® Stick Adhesive the decorative ribbon around the outer edges of your dotted fabric piece.

Tips

Start at the top dot on the very right side row and fill the right side vertical row first.

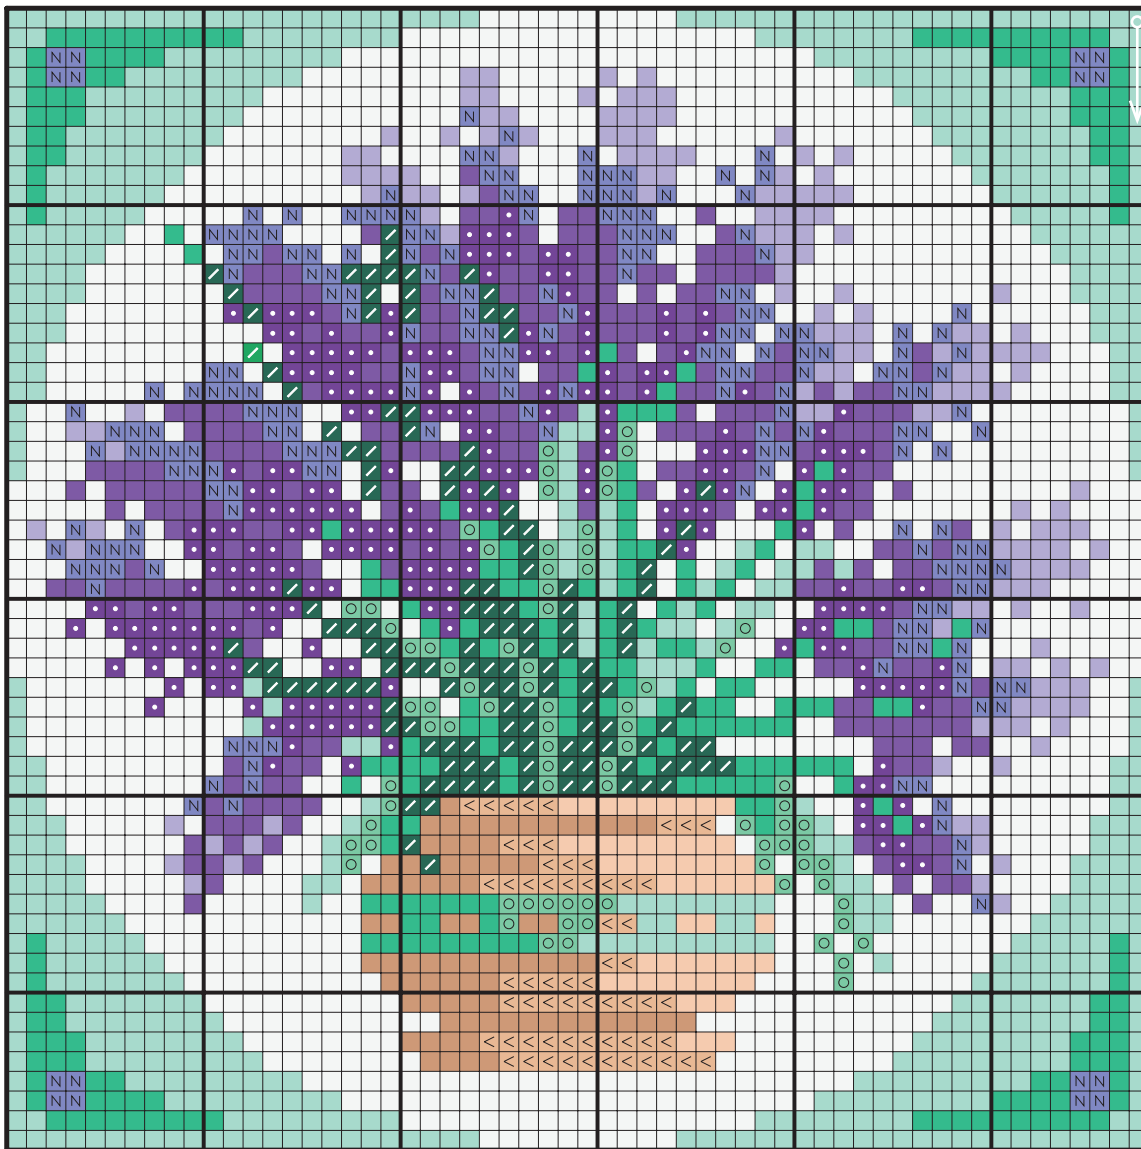

Peel the film back from the first area you'd like to apply the gems to. Do not remove the protective film from the whole fabric piece; gradually peel back the film as you work.
