Project Instructions

1. Layout letters on sign as shown and trim sign to desired length.
2. Basecoat sign with Wicker White and large brush, let dry.
3. Following basic instructions on DOTZ® STICK Adhesive, apply adhesive to all black wood letters and let dry till tacky.
4. Using stencil tape, tape off sign as shown and paint as shown in photo. Let dry.
5. Add Dotz onto adhesive letters as shown.
6. Dot each letter as shown in photo.

TIP - for letters with straight edges (w, l) start on the top of each letter and dot a row, repeat rows until you complete each letter. For letters that are curved (c, e) start on the curve edge and repeat.

7. Once all letters are dotted, layout on sign so that spacing is even and glue down with Tacky Glue. Let dry.
8. Seal sign with Mod Podge Ultra. Let dry.
